The process results in a reflexive narrative, which highlights key issues for enhancing health care practice and professional care. This book uses a collection of such narratives from everyday clinical practice in nursing, health visiting and midwifery to demonstrate the theory and practicalities of guided reflection and narrative construction ...

**Guided Reflection | Medical Books**

4. Narrative. Nineteen reflections form the raw data of the research. Reflections differ in length and depth, placing a challenge in adequately representing the messy realities of life experiences within academic conventions (Mitchell and Clark, 2018). The narrative is kept as a whole rather than thematically deconstructed.
