Nursing Care In An Aging Society

Most nurses, whether or not they work primarily with a geriatric population, will care for elderly patients at some point in their careers; knowing the normal signs of aging is an essential skill. "You have to think of what aging does to vision and hearing," says Cotton. There can be changes in balance, memory, or mobility.

Long-Term Care in an Aging Society

The word "Aging" and
"Old Age" are highly
subjective. "Aging" is
defined as the time
from birth to the
present for a living
individual, as
measured in specific
units (John Anne). The
meaning of old and

Nursing Care In An Aging Society

According to Sarah Kagan's 2015 article in the Journal of Nursing Management, "Nursing is an ageing profession caring for an ageing society." Often, older patients feel more comfortable with nurses of a similar age. As we age, our bodies go through a variety of changes, some of which are difficult to talk about.
