### The Loom of God Clifford A. Pickover Mathematics

The Loom of God takes an entertaining, indeed playful, look at numbers and mathematical patterns and the mystical properties that have often been ascribed to them. Clifford Pickover takes you on a romp through numerological history, introducing both its characters (such as the great mathematician Pythagoras) and its concepts: triangle numbers, "perfect" numbers, Fibonnaci numbers, and more.

### The Loom of God: Mathematical Tapestries at the Edge of ...

I have a number of Cliff Pickover's books (he is a prolific author) and "The Loom of God" is the latest one I have just completed. Far too much good stuff in here to complete in one sitting - so I read this over 3 consecutive days. As the title says, Mathematical links to Mysticism, God, Numerology and the End of the World.

### The Loom of God: Tapestries of Mathematics and Mysticism ...

The Loom of God- Tapestries; Review : Clifford Pickover's writing style is more like a jazz improv than like a stodgy scientific treatise. His eclectic techniques make his works both intriguing and, yes, occasionally infuriating, but reading Pickover is always ultimately fun and enriching.
